ENGINEERING NEWS-RECORD

A WEEKLY JOURNAL OF CIVIL ENGINEERING AND CONSTRUCTION

INDEX

VOLUME 128 • JANUARY-JUNE, 1942

COPYRIGHT 1942 BY McGRAW-HILL PUBLISHING COMPANY, INC., 330 W. 42nd ST., NEW YORK, N. Y.

January	1	1– 54
January	8	55– 72
January	15	73– 144
January	22	145– 162
January	29	165– 212
February	5	213– 228
February	12	231– 296
February	19	297– 312
February	26	313– 362
March	5	363– 382
March	12	387– 440
March	19	441– 456
March	26	459– 508
April	2	509– 524
April	9	525– 577
April	16	578– 592
April	23	595– 735
April	30	736– 756
May	7	757– 811
May	14	812– 830
May	21	831– 878
May	28	879– 892
June	4	893– 946
June	11	947– 964
June	18	965–1028
June	25	1029–1044

A

Aeronautics

Airplane plants:

Bomber plant is windowless, air conditioned n*510
English aircraft factory in old mine.. *736
Goodyear airplane plant, Akron..... n*1
Inland plant for bomber assembly ... *606
Glenn L. Martin plant to have added water supply n219
White cement floors for better light in bomber plant..... *398; n1037

Airports:

Appropriations to add 105 fields to defense program n5
Atlanta expands its airport..... n*215
Atlanta, Ga. runways made of cement mixed with soil. W. B. West..... *414
Chemung County, N. Y. airport (unit prices) 380
paving (unit prices)..... 828
Construction at outlying bases—living and working conditions. Maj. Gen. Eugene Reybold..... *109
Denver combined hangar and office building *402
Fargo, N. D. hangar of long laminated wood arches..... n*168
Flight strip plans take definite form.. 541
correction. S. S. Hanks..... l 839
Flight strips for emergency landing fields are authorized..... n376
Foundations erected in frozen ground by using tents to protect the work. *853
Galveston, Tex. uses three types of drainage *906
Garner Field, Tex.—collapsible doors for hangar *772
Hangar of timber with cantilever roof. F. M. Weakley..... l *603
Intermunicipal cooperation on airports increases 326
New York City—seaplane hangar will serve transatlantic planes..... n*303
Paving methods at an Eastern airbase *12
Pittsburgh airport uses roller to pack snow n*225
Runways—tangent distances for runway intersections. R. E. Stallings.. *566
Soil-cement runways for Army airport in Midwest..... *38
Soil-cement runways for heavy bombers. C. H. McLaughlin..... *366

Aeronautics—continued

WPA airport program improves 900 sites n529
War damage clause put in specifications n226

Air Conditioning

Bomber plant is windowless, air conditioned n*510
Dallas bank building employs two air conditioning systems, one for exterior and one for interior rooms..... *782
New air-conditioning installations forbidden n836

Air Raids and Protection

Air raid protection..... 14
Blackout of street lighting. G. A. Eddy *791; e767
"Bomb-proof" is relative. T. J. Coe..... l 9
Bomb tests of materials and structures. *185
Bombardment school for engineers meets for a week..... n*371
British factories use glass despite blackouts n451
Building Officials discuss bomb protection measures n898
California issues rules for air raid shelters n148
California schools rated for air raid safety n146
Charlotte, N. C. waterworks test speedy. n581
Chicago decontamination squad in action n*815
Chicago develops air-raid organization measures for water supply protection. *990
Chicago public works to be maintained and protected in air raids..... n376
Chicago subway may be used as shelter. n314
Civil defense studied by many engineers n315
Civilian defense—Britain's example. W. D. Binger..... *107
Dampness in underground air raid shelters 422
Engineers to be schooled in bombing protection n155
England investigates the effects of air-raid attacks on reinforced-concrete structures 329
Extinguisher for magnesium fires..... 929
Feldspar found effective against incendiary bombs n1030
Great Britain—water supply in air raids *192
Hawaiian air-raid protection..... l 900
Hawaiian building rising again after bombing n*880
Highway bureaus set up disaster air squad n884
Incendiary bomb film being distributed by OCD n214
Lectures on bomb-resistant shelters at Pratt Institute n510
Michigan dims traffic lights during blackout 781
Model shows Chicago's emergency public works after an air raid..... n*742
New Jersey will not permit air raid wardens to tamper with water system operation n515
New York inspects disaster equipment squads n452
New York subways surveyed for air raid safety areas n463
New York's Citizens Defense Corps—diagram showing steps in an emergency n*832
Portland, Ore. municipal "war code" of emergency ordinances..... 979
Raid injuries in private shelter not owner's loss n896
Reinforced-brick shelters. J. H. Hansen ..... l 467
Sewer squad organization for air raids, Chicago 423
Survey of building safety urged for designating air-raid safety zones..... n218

Air Raids and Protection—continued

Testing window glass for concussion damage n*521
Timber raid shelter..... n*761
Water men trained for bombing emergencies n*597
Water valve operation under emergency conditions. A. S. G. Murgrave..... l 764
Western Pennsylvania's contractors organize to aid utility disaster repair... n889
Windham Center, Conn. air-raid shelter for fifty persons..... *904; e902
American Association of State Highway Officials—W. C. Markham to retire... n*389
American Concrete Institute—Chicago convention n317
American Congress on Surveying and Mapping—organization at meeting..... n597
American Institute of Architects charges technical aid slighted by OCD..... n961
American Institute of Consulting Engineers—officers elected n*167
American Railway Engineering Association—Chicago meeting n*462
American Road Builders Association:
Memphis meeting n*390
Mexican engineers participate in meeting n448
Survey of powered equipment being made n235
American Society for Testing Materials—Cleveland meeting n448
American Society of Civil Engineers:
New honorary members..... n*149
New York convention..... n168
Officers elected n*155
Roanoke, Va. meeting..... n742
San Francisco Section meeting..... n2
Texas Section meets..... n*449
American Water Works Association:
New Jersey section meets..... n515
New president and vice-president of group n*447
Officers nominated n152
American Wood-Preservers Association—Minneapolis convention n225
Apprentices—first apprentice group graduates under new state training law.... n*511

Aqueducts

Delaware River Aqueduct:
Car and trailer for inspection..... *429
Grouting tunnel lining..... *19
Last section holed through..... n815
Tunnel section ready for emergency use n81
Los Angeles aqueduct guards put on horseback n619

Arches:

Fargo, N. D. hangar of long laminated wood arches n*168
Laminated timber arches for a laboratory *416

Associated Equipment Distributors:
Hold meeting n157
Meeting in Chicago..... n965

Associated General Contractors:
Chicago meeting n*967
Indianapolis meeting discusses war program n316
Mid-West contractor organizations hear about war construction work..... n75
Minneapolis convention n*158

Association of Highway Officials of the North Atlantic States—Philadelphia convention n368

Automobiles

Directory of automobile "graveyards" prepared n378
Ford car and trailer for Delaware tunnel inspection *429
Gas rationing affects construction men. n817
Massachusetts surveys war transport.. n1035
Michigan pools use of state-owned cars n749

Awards—Washington award presented to W. L. Abbott..... n*389

• Illustrated: a, abstracts; e, editorials; l, letter; n, news

B

Barges—see Ship building

Beams

Chart for spacing stiffeners. M. J. Marcuson, 207; correction 502
Designing concrete beams. Andrew Eberhardt 1 8
Designing reinforced concrete beams by column analogy. C. A. Ellis 1 321
Effect of settling pier. Otto Ebel 43
Fixed end moments. John Vamosi *502
Fixed-end moments calculated with help of tables. M. W. Rosenstein 994
Flame-straightened I-beams *566
New moment formulas. Joshua Tabatchnik 627
RCA Manufacturing Co. warehouse is roofed with plywood girders *625
St. Johns, Ore. shipyard—crane puts in place timber trusses, readymade ..n*1041
Section modulus of girders. Paul Fischer *798
Trusses of plywood stiffen camp buildings, Calif. n*443

Blasting

Cased drill holes. Myron Carl 208
Fiber plug curbs blast noise. F. R. Cozzens *933
Vancouver Island channel obstacle to be blasted out n219
Bombing—see Air raids
Bonds—Mobile, Ala. calls bond election ..n600

Book Reviews

Aerial bombardment protection. Wessman & Rose 357
Aerophotography and aerosurveying. J. W. Bagley 567
American highway policy. C. L. Dearing 357
American highway practice. L. J. Hewes 357
Bridges and their builders. Steinman & Watson 209
Building construction. W. C. Huntington 567
Economic almanac for 1941 210
Elementary plane surveying. R. E. Davis 503
An engineer in the Orient. R. W. Lawton 935
Engineering surveys: elementary and applied. Rubey, Lommel & Todd 503
Experiments upon the flow of water in pipes and pipe fittings. J. R. Freeman 357
Fluorescent lighting manual. C. L. Amick 936
Further cartographic studies of drought. W. R. Baldwin-Wiseman 503
Gurley manual of surveying instruments. W. & L. E. Gurley 209
Handbook of civilian protection 935
Highway economics. Tucker & Leager. 357
Hydraulics. G. E. Russell 799
Hydraulics of steady flow in open channels. Woodward & Posey 567
Modern battle. P. W. Thompson 567
Photoelasticity. M. M. Frocht 503
Practical construction of warships. R. N. Newton 935
Refuse collection practice 568
Relaxation methods in engineering science. R. V. Southwell 209
The road we are traveling. Stuart Chase 935
St. Lawrence survey 935
Shipbuilding terms 935
Sixty years a builder. Henry Ericcson. 800
Study of methods used in measurement and analysis of sediment loads in streams 799
Surveying. C. B. Breed 503
Through engineering eyes. A. R. Cullimore 209
Transportation and national defense. J. L. White 936
Wartime building construction 358
Water purification for plant operators. Norcom & Brown 210
What the citizen should know about the army engineers. Lt. Col. P. W. Thompson 799
What the civilian should know about civilian defense. Binger & Bailey ... 935
Bricks—see Construction materials

Bridge Accidents and Failures

Army blows up Ohio highway bridge to show demolition methods n*1031
Chicago bascule leaf rocked into position by jacks after bridge accidents. S. J. Michuda *557
Frederick, Md.—stone arch falls under modern traffic *984
Kansas highway flood-damaged bridge may be replaced by wood bridge n814
Kiev bridge, U. S. S. R. demolished to stop German drive n*56
Military engineering in East Africa 553
West Virginia bridge is damaged by tank car fire n814

Bridge Construction

Bridge design and construction. W. G. Bowman *92

Bridge Construction—continued

Bridge details—1942 ..... *753
British bridges assembled from five standard parts n*148
Highway bridge jacked up to new position, Ohio n*895
Military engineering in East Africa 553
Scranton, Pa. major bridge replacement under traffic. A. B. Cohen *926
Timber bridges. W. C. Hopkins *279
Timber bridges. K. W. Lemcke 1 533

Bridge Design

American Institute of Steel Construction competition n379; n530; n584; n*816
Army engineers test new type of pontoon bridge n*62
Bridge design and construction. W. G. Bowman *92
Emergency traveling bridge used in England 40
Hawaiian bridges use reinforced-concrete rockers. R. C. Brinker, *421; W. R. Bartels 1 901
Langer tied-arch bridges. Jose Sanabria 1 395
Pit River bridge railing *429
Program for conserving critical materials considered by bridge engineers. n319
Restrained cable bridge. C. A. P. Turner 1 *533
Restrained cable bridges. Tiggelbeck, Turner 1 838
Rigid frames not always best. H. M. Hadley 1 395
St. Georges, Del. highway bridge is a 540 ft. span tied arch. M. N. Quade .. *22
St. George highway tied arch bridge erection. Bruce & Kring *26
San Francisco-Golden Gate bridge movements being reported for study .*867
Strengthening our highway design. C. P. Cueni 1 395
Strengthening steel highway bridges by integrating concrete roadway slab with steel flood system. E. L. Pavlo. *339
Suspension bridges under wind. Ralph Freeman 1 *603
Tubular members to save steel. H. S. Card *418

Bridges

Baltimore:
Construction of Back River bridge (unit prices) 755
Chester, Ill.:
Highway bridge under construction ..n*446
Chicago:
Dislocated bascule rocked into position. S. J. Michuda *557
Scow provides temporary pontoon crossing *355
State St. bridge piers completed n*79
Studies made to convert fixed bridges .n896
Dover, Ohio:
Highway bridge jacked up to new position n*895
Dubuque, Iowa:
Substructure complete n*57
Footbridges provide safety where workmen cross foundations for plant *501
Fort Benning, Ga.:
Pontoon bridge of new type tested by Army n*62
Grand Coulee Dam:
Falsework for arches set on drum gates *552
Great Britain:
Emergency traveling bridge 40
Greenville-Lake Village bridge:
Legality of interstate bridge tax questioned n881
Hartford, Conn.:
Consultants to supervise work n954
Erection again under way n*966
Hawaii:
Concrete rockers for bridges. W. R. Bartels 1 901
Concrete rockers for bridges. R. C. Brinker *421
Headline projects for 1941 120
Kentucky Dam, Tenn. River:
Steel sheetpiling encases piers against scour. Broadfoot & Chalkley *562
Kiev, Russia:
Suspension bridge destroyed by troops 547
Lake Charles, La.:
Construction delayed n592
London:
Waterloo construction continues n*738
Lorain, Ohio:
Nickel Plate R.R. bridge timber fender replaced by steel. G. H. Tinker *616
Marcus, Wash.:
Railroad bridge replaced by Coulee Lake floated to new place n*441
Maryland:
Timber bridges. W. C. Hopkins, *279; K. W. Lemcke 1 533
Military bridges assembled rapidly from standard units n*369
New London, Conn.:
Consultants to supervise work n954
New York City:
Toll bridges show increased revenues for 1941 ..... n528
Whitestone Bridge—stiffening truss and revised roadway planned n376
Ohio highway bridge built on unusual skew n*760
Pascagoula River bridge toll ended ...n364
Patapsco bridge:
Hearing on plans to be held n463

Bridges—continued

Peoria:
Foundation piles penetrate water-bearing stratum, complicating construction. W. H. Townsend *495
Pit River bridge:
Canvas cover permits wet weather paving on concrete deck n*223
Put in service n517
Railing for bridge *429
Pontoon bridge thrown across Red River flood n959
Pontoon bridge crossing made by scow .*355
Rhodesia, Africa:
Suspension bridge. Ralph Freeman .1 *603
Riverton, Va.:
Three highway bridges completed ... n*63
St. Georges, Del.:
Highway bridge is a 540 ft. span tied arch. M. N. Quade *22
How tied arch bridge was erected. Bruce & Kring *26
San Francisco-Golden Gate bridge:
Instruments installed to study movements *867
San Francisco-Oakland Bay bridge:
Engineer wins back pay court action n454
Re-insurance negotiated n530
Sandy Hook Bridge, Va.:
War to delay construction n319
Scranton, Pa.:
Major bridge replacement under traffic. A. B. Cohen *926
Seattle, Wash.:
Spokane street viaduct (unit prices). 228
South Carolina:
Widening a steel and concrete bridge. *254
South Charleston, W. Va.:
Construction (unit prices) 938
Strengthening steel highway bridges by integrating concrete roadway slab with steel floor system. E. L. Pavlo. *339
Tacoma Narrows bridge:
Replacement of bridge will be delayed n580
Steel from wrecked bridge is sold n237
What price salvage e10
Tuscaloosa, Ala.:
Timber bridge is answer to steel shortage n377
Washington, D. C.:
Covered bridges over Lincoln Memorial basin n*881
Design competition for bridge n527
Tidal Basin bridge under way n*529
Wyoming's oldest bridge has service record of 66 years *411
York, Va.:
Post-war bridge planned n821
Bridges—see also Grade crossings
Building accidents and failures—Washington hotel formwork fire does only slight damage n*234

Building Construction

British factories use glass despite blackouts n451
California builds low-cost schools in war plant areas *910; e902
Cleveland warehouse without priority materials *473
Dampness in underground air raid shelters 422
England investigates the effects of air-raid attacks on reinforced-concrete structures 329
Headline building projects of 1941 ..... *132
Hospital building is spurred by war population n759
Labor protests simplified buildings without plastering n527
Mexico City's building program not hit by war n443
Municipal building costs—New York City 720
Navy housing project speeded by precutting of material, pre-assembly of parts. George Michelson *478
School program approved for children of war workers n388
Site assembly methods speed housing construction *18
Special building cost and volume indexes 1914-1941 670
United Service Organization recreation centers built on fast schedule *554
Voorheesville, N. Y. Army warehouse saves steel *204
War Department office building concreting *920
WPB orders new plant building held to essential war needs, simple design ...n896
War factories symbolize 1941 buildings. J. I. Ballard *97
Warehouse designed to speed construction *622
Warehouse scheduled to be completed in 9 months, done in 26 weeks n*886
Building construction—see also Air raids, Housing

Building Design

Beehive of concrete for underground munitions storage. F. R. MacLeay, *498; correction, L. P. Corbetta .e470; 1 532
Bomb tests of materials and structures *185
California builds low-cost schools in war plant areas *910; e902
California schools rated for air raid safety n146

* Illustrated; a, abstracts; e, editorials; l, letter; n, news

Building Design—continued

Chevrolet Motor Co. building uses grid system floor of record span. S. D. Szego *16
Denver auditorium using steel rigid-frame arches. F. J. Foehl.....*546
Des Moines storage building is concrete shell with concrete arched roof....*474
Designs standardized on defense works.n299
Domed building fitted to research needs of University of California.....*536
Huts with steel frames and sheet steel covered for the Army.....n*451
Laminated timber arches for a laboratory *416
Owens-Illinois Can factory designed for production efficiency.....n*300
Refinement in design to conserve materials. W. R. Osgood.....1 602
Voorheesville, N. Y. Army warehouse saves steel *204
War factories symbolize 1941 building. J. I. Ballard..... *97
Windham Center, Conn. air-raid shelter for fifty persons.....*904; e902
Building design see also Structural design

Building Laws and Regulations

Canada strengthens its building license control n236
Chicago revises building code as war measure n517
Flexible building codes urged for war's duration n526
Illinois Public Building Authority upheld by Court.....n527
Building Officials Conference of America..n898

Buildings

Akron, Ohio:
Goodyear airplane plant..... n*1
Alabama:
Safety in powder plant construction..*404
Arlington County, Va.:
War Department office building completed in record time.....n759
War Department Office building concrete delivered in transit-mix trucks *920
Avon, Ky.:
Laboratory building of laminated timber arches *416
Boise River, Idaho:
Anderson Ranch Dam garage, shop buildings, residences (unit prices).. 523
Bomber assembly plant, Inland.....*606
Bomber plant finds white cement floor successful light reflector.....n*1037
Bomber plant is windowless, air conditioned n*510
Bomber plant uses white cement floors for better light.....*398
British Columbia:
Hospital construction in 1941.....n601
California:
Low-cost schools in war plant areas..*910
Camden, N. J.:
RCA Manufacturing Co. warehouse is roofed with plywood girders.....*625
Charlestown, Ind.:
Ordnance plant—grounding wire installed by tractor drawn rooter. R. C. Dean..... 343
Clearing, Ill.:
Owens-Illinois Can factory designed for production efficiency.....n*300
Cleveland:
Standard Oil laboratory at Western Reserve n*147
Warehouse without priority materials *473
Westinghouse Electric & Mfg. plant addition I-beams welded in place..*494
Connecticut:
Plant planned to coordinate war production facilities n*365
Dallas, Tex.:
Mercantile Bank Building utilizes 50-ton trusses *782
Danvers, Mass.:
Hygrade Sylvania completes plant..n*157
Denver:
City auditorium using steel rigid-frame arches. P. J. Foehl.....*546
Combined hangar and office building.*402
Des Moines, Ia.:
Sliding scaffolds speed cement plant..*474
Detroit:
New home of engineering societies..*578
Evanston, Ill.:
Northwestern Technological Institute dedicated n*968
Fitchburg, Mass.:
Operating experience on windowless plant, Simonds Saw & Steel..... 845
Flint, Mich.:
Chevrolet Motor Co. building uses grid system floor of record spans. S. D. Szego..... *16
Fort Wayne, Ind.:
General Electric starts turbo-supercharger plant n*3
Great Britain:
Aircraft factory in old mine.....*796
Mexico plans building three new hospitals n1030
Milan, Tenn.:
Wolf Creek Ordnance Plant constructed in record time..... n61
Munitions plant built in congested area, mid-west *842
Oakland, Calif.:
University of California to house research in domed building.....*536

Buildings—continued

Toledo, Ohio:
Plant construction work split between two unions n388
Virginia proceeds with new penitentiary n959
Voorheesville, N. Y.:
Army warehouse design saves steel..*204
Warehouses for a Quartermaster base expedited by substantial service roads.*768
Warehouse in Middle West designed to speed construction *622
Warehouse scheduled to be completed in 9 months, done in 26 weeks.....n*886
Washington, D. C.:
Statler hotel formwork fire does only slight damage n*234
Temporary office buildings under rush construction n*744
West Brentwood, L. I.:
Pilgrim State Hospital ready for use.n*297
Windham Center, Conn.:
Air-raid shelter for fifty persons...*904
Buildings—see also Air raids, Housing

C

Cableway towers used at Conchas Dam now to be used at Niagara Falls.....n*959
Cableways at Shasta Dam.....n*453
Caissons—suction type caisson expedites work under water, San Fernando Reservoir n*584
Camouflage—construction techniques to meet camouflage requirements.....*989
Camouflaging highways to be studied...n378
Camps—see Buildings, Housing
Canadian Department of National Defense—Army Technical Development Board named n591

Canals

Florida barge canal is suggested.....n517
Intracoastal Canal, Tex. new section to be opened n590
Madera Canal, Cal. in construction....n*520
Panama Canal:
Bid on third Gatun lock..... n74
Gatun locks contract awarded.....n314
Lock work modified by order.....n885
Pedro Miguel and Miraflores lock bids n739
Rio Grande canalization near completion n760
Texas irrigation canals lined with brick. W. I. Gilson.....*350
Cavern phenomena produced in Frankfort, Ky. n*591

Cement

Atlanta, Ga. runways made of cement mixed with soil. W. B. West.....*414
Cement researchers adopt graveyard motif n*373
White cement floors for better light in bomber plant *398; n1037
Channels—St. Johns River, Fla. channel to be dredged.....n219
Vancouver Island channel obstacle to be blasted out.....n219
Chemicals—seek domestic raw material sources n509

Chimneys

Guy derrick erects 100-ft. stack.....*876
Steel stack shell thickness. Samuel Levine (chart) 565
Chronological summary of 1941 news events 82
Cities:
Kansas City, Mo. finds engineering management good government. W. H. Smith 1 532
Portland, Ore. municipal "war code" of emergency ordinances..... 979
Civilian defense—see War

Cofferdams

Kentucky Dam cofferdam design. A. F. Hedman *30
Kentucky Dam cofferdam design. L. A. Schmidt, Jr. 1 467
Kentucky Dam cofferdam piles driven by four-hammer rigs. J. W. Peerson.*194
Peoria bridge foundation piles penetrate water-bearing stratum, complicating construction. W. H. Townsend *495
Columns—cylindrical steel columns carry shipyard cranes *324

Concrete

Airport foundations erected in frozen ground by using tents to protect the concrete *853
Barges of concrete in construction.....n885
British emergency buildings made from precast concrete 988
British railway extends use of precast concrete 556
Concrete frames designed to save steel. J. J. Polivka.....*981
Council Bluffs, Iowa, prestressed concrete water tanks.....*608
England investigates the effects of air-raid attacks on reinforced-concrete structures 329

Concrete—continued

Hawaiian bridges use reinforced-concrete rockers. R. C. Brinker..... *42
High temperature recorded in concrete monolith for Oaklandon reservoir dam *852
Los Angeles housing projects save steel in concrete by using wire.....*930
Louis River Dam, B. C.—dropping concrete 50 ft. without segregation.....*292
Mixing time for concrete. H. M. Hadley 1 38
Non-reinforced concrete and vitrified clay pipe substituting for steel in culverts *558
Placing concrete on two levels at once by towers and cranes.....*256
Prestressed concrete. Oskar Schreier..1 467
Reinforcing bars for concrete—price frozen by OPA.....n*870
Reinforcing steel economy studied in concrete slabs and columns. A. J. Boase *866
Reinforcing steel saving. F. P. Witmer 1 872
Reinforcing steel use cut on war public works n*587
Rigid frames not always best. H. M. Hadley 1 395
Saving reinforced-concrete steel by rationalizing safety factors. A. J. Boase 785; e*66
Ships of concrete, self-powered, added to Maritime Commission program....n*87
Strain meters to measure plastic flow in Shasta Dam.....*425
Waterproof concrete and rusted rods. M. P. Hite.....1 321
Conduits:
Box Butte Dam outlet conduit in construction n*214
Hartford, Conn. twin conduits constructed to carry Park River through city and prevent floods.....*180

Construction

Appropriation passed by House.....n309
Authorized construction War Production Board poster.....n*813
Billion and a half asked for war construction n143
Boeckh index of construction costs, 1926–1941 682
British Columbia reports 1941 construction n982
Construction at outlying bases—living and working conditions. Maj. Gen. Eugene Reybold *109
Construction in U. S., 1925–1941 (charts) 136
Construction Order No. L-41.....n580
Construction Order L-41 broadened to halt building of amusement facilities.n879
Construction Order L-41 proves flexible in its application.....n835
Cost of financing—bond interest and money rates, 1901–1941..... 684
Costs of construction in 1941 (charts).. 143
Costs of construction in 1941 (charts).. 667
Costs of construction reach record peak n582
Costs—trend of building costs in Chicago. Max Fuhrer..... 733
Current construction practice. H. W. Hunt *105
ENR construction in 1941 (charts & tables) 138
ENR construction cost index 1914–1941 668
Financing of construction in 1941 (charts) 137
Insignia of the Seabees, Navy's new construction forces n*746
Keeping costs with tailor-made indexes. C. A. Mees..... 688
Lambert's utility cost trends, 1913–1941 678
Mexico hits a new high in construction. A. N. Carter.....*810
Monthly construction business summary, Jan. 1, adv. 19; 231; 387; Apr. 9, adv. 51; May 7, adv. 51; June 4, adv. 51
Motion picture producers sets' restrictions eased n814
Municipal building costs—New York City 720
Navy enlisting construction forces for combat zone work.....n509
New construction curtailed by WPB conservation order n577
1941 construction year was the biggest in history n55
1942 construction will reach $15,000,000,000 (chart) 595
No more non-war construction.....e805
Non-essential construction receives stop-order by WPB.....n441
OPM may halt use of existing inventories on new civilian construction.. n62
Pre-assembly now standard.....e840
Price regulation to be issued by OPA..n965
Public utility construction cost index, 1915–1942 676
Railroad construction cost indexes, 1918–1940 674
Roadbuilding costs, 1922–1941..... 718
Safety record set by Corps of Engineers n588
School teaches construction trade, Seattle n*589
Small house cost, 1939–1941..... 722
Special building cost and volume indexes, 1914–1941 670
"Speed the factories" British poster...n*308
U.S.H.A. housing cost data..... 724
Unclassified construction in the U. S.—1941 (chart) 141

* Illustrated; a, abstracts; e, editorials; l, letter; n, news

Construction—continued

Volume of construction hits all-time peak n757
WPB construction board moved to New York n951
WPB continues tightening construction controls n595
WPB setting up construction bureau ... n583
Wage rates and trends in construction, 1925–1942 708
War appropriation bill signed — sixth supplemental bill n759
War construction, 1939–1941 (chart) ... 85
War construction projects from a contractor's viewpoint 874
War construction wave seen ebbing as schedules are met n831
War construction work being done in foreign countries n442

Contruction Equipment

A-1 priority rating will be placed on construction machinery n581
Alaska highway—equipment is rushed across the ice n*820
Belt conveyor hangs on "skyhooks" .. n*169
Breaker for removing pavement. C. T. Fisher *43
Bulkhead keeps rock off roadway *798
Cable scraper used to load hopper in gravel pit *627
Canvas cover permits wet weather paving on concrete bridge deck, Pit River n*223
Cableway towers used at Conchas Dam now to be used at Niagara Falls n*959
Crane equipped with 110-ft. long boom n*817
Crane rides old turntable to prepare pit for new one *481
Crane, short jib, simplifies parts handling. M. T. Pate *43
Cranes and power shovels price rise rescinded n*56
Cranes and towers place concrete on two levels at once *356
Dump bucket handling concrete has internal "stopper" 44
Drill saves on foundations. G. P. Rice .. *43
Enough construction equipment? e604
Equipment distributors play a vital role e903
Guard prevents guy line accidents. C. C. Lynde *798
Hand spurs aid placing of bricks *566
Hanging salamander warms exposed pump station *627
Highway contractors may not use priority system to buy new equipment .. n454
Hot-air furnaces instead of salamanders 876
Ladder for bridge painters *501
Ladder of durable design for access to tank roof *627
Manufacturers and distributors of construction equipment discuss plan to maintain war builders' machines n600
No tools, no pay 934
Paving machine has "tickler" to aid operator. J. E. O'Hearne *502
Pipeline "go-devil" trap. C. M. Glines. *429
Pivoted crane insures clean boiler feed. M. T. Pate *208
Pre-attached nailing strips 876
Price freezing order issued by Office of Price Administration n737
Processing plant for separating fines from rock for Green Mountain Dam .. *188
Proper care and operation of tractors, scrapers and road graders *871
Ramp to second story 876
Rental rate is considered by the Corps of Engineers n529
Rental rates for equipment 716
Roller device for applying separating agent on brick pavements *356
Roller used to pack snow at Pittsburgh airport n*225
Safety net used to help build hangars .. 876
Sale and rental of construction equipment placed under federal control n760
Sandblast nozzle for cleaning Grand Coulee Dam gates *875
Scaffold helps make wire connections .. *429
Sliding scaffolds speed cement plant *474
Splice for long wood handles *933
Spring-scale measures deflections of loaded floors. F. M. Weakley *934
Strainer, foot-valve for construction pumps. C. C. Lynde *628
Tents protect concrete construction in frozen ground, airport foundations ... *853
Tractor-mounted vibrator for compacting earth 561
WPB equipment survey. Louis Levenson 1764; e767
Window washer's car *430
Wire laying device installed by tractor drawn rooter. R. C. Dean *343

Construction Materials

Asphalt cutoff wall at Claytor Dam. H. S. Slocum *490
Asphalt cutoff walls. V. A. Endersby .. 1900
Asphalt protective coating for steel water pipes. A. H. Benedict *327
Asphalt shortage requires adjustments in pavement work n889
Brick expansion determined by tests ... 37

Construction Materials—continued

Brick lining for irrigation canals. W. I. Gilson *350
Brick specifications changed by the British n739
Builders may use revised P-19 rating for war construction projects n454
Burlap shortage due to the war n222
Central mixed mortar for brick building 876
Engineers and designers to be given lists of scarce materials by WPB n514
Materials and labor prices 48, 290, 434 570, 698, 802
Metal plastering bases production to be cut n520
Nail manufacturers to increase production n517
Output of construction materials, 1932–1941 (table) 142
Price freezing order issued by Office of Price Administration n737
Prices of construction materials, 1874–1941 697
Priority ratings on war jobs amended to apply to material in finished project n890
Program for conserving critical materials considered by bridge engineers. n319
Refinement in design to conserve materials. S. U. Benscoter 1972
Refinement in design to conserve materials. W. R. Osgood 1602
Reinforced-brick shelters. J. H. Hansen 1467
Rubble masonry to save critical materials. L. M. Winsor *482
Sand bag barricades used with asphalt admixture n*77
Self-imposed saving e174
Shortage of materials — redesign and substitution. H. L. Whittemore 112
Substitutes for critical materials outlined by the Munitions Board (table) .n824
Substitutes may stay e323
Substitutes permitted in Portland buildings n389
Viscosity of liquid road asphalts measured in terms of scientific units. Zapata, Rode & Doyle *915
WPB installs contract code system as check on final use of raw materials .. n895
War materials list for defense housing .n363
War materials scarcity list issued by War Production Board n447
War materials second scarcity list issued by WPB n599
War materials scarcity list issued for the third time n950
War Production Board is studying reduction of types of material n388
Warehouse without priority materials .. *473
Construction materials—see also Concrete, Plywood, Priorities, Steel, Wood .

Contractors

Baltimore court upholds asphalt paving contractor on tax exemption n308
High Point, N. C. contractor on Yadkin River project gets pay for idle machines n960
Inspection practices on war construction e470
Kansas contractors ask release from road contracts to use equipment for war work n530
Pollock protests listing for excessive profits n165
Spokane, Wash. contractors form labor pool to speed building n1036
U. S. Court of Claims render two decisions of importance to contractors on public work. G. R. Shields 201; e174
War construction projects from a contractor's viewpoint 874
Western Pennsylvania's contractors organize to aid utility disaster repair .. n889

Contracts

Architect-engineer-manager contract .. e397
Architect-engineer-manager contract form becomes standard in War Department n297
Architect-Engineer-Manager contracts may be lump sum or unit price n373
Construction Contract Board responsible for Army engineering contracts n387
Contracts for private industrial building by industries (table & chart) 140
E.N.R. engineering construction contracts ..7, 70, 80, 161, 173, 227, 238, 310 320, 379, 394, 455, 465, 522, 531, 592, 601 754, 763, 827, 837, 891, 899, 963, 971, 1042
Formal competition on bids abandoned by Corps of Engineers n93
Kentucky court rules grading job includes rock removal n447
Negotiated contracts are best e11
Negotiated fee contracts are attacked and praised by Congress n165
Oklahoma City saves on new waterworks project by force account construction *788
Procedure in bidding and building a lump-sum camp job *726
War damage clause inserted in all engineer contracts n233
War factory work yields duPont under 1 percent n235
Conventions justified? e322
Cooling tower at Keswick Dam *565
Corrosion:
Exposures of low-alloy steels to corrosive soils for study 333
Protection of metals from soil corrosion 253

Contracts—continued

Crib wall model tests. G. C. Habicht 18
Culverts:
Armco designs wood culvert to conserve critical material *540
Non-reinforced concrete and vitrified clay pipe for culverts 559
Cylindrical intersection quantities. L. J. Sack *618

D

Dams

Agency Valley Dam:
Flood damages underestimated n897
Anderson Ranch Dam:
Garage, shop buildings, residences (unit prices) 523
Argentina:
Highest concrete arch dam in South America n*214
Arkabutla Dam:
Construction of dam n*220
Berlin Dam, Ohio:
Construction (unit prices) 162
Bluestone Dam, W. Va.:
Construction (unit prices) 212
Bluff Creek Dam:
Earth dam for Oklahoma City's new waterworks *788
Box Butte Dam:
Outlet conduit in construction n*314
Bull Shoals Dam:
House rejects recommendation for appropriation n452
Camp San Luis Obispo, Calif.:
Arch dam built between gravity abutments n*530
Cherokee Dam:
Dedicated n74
Portable service station *565
Claytor Dam:
Asphalt cutoff wall. H. S. Slocum *490; e471
Cumberland River additional dam projected (map) n237
Davis Dam:
Bids called for n588
Dam and powerhouse, Arizona-Nevada (unit prices) 1027
First contract awarded n897
Reclamation Bureau starts dam n600; n*960
Deerfield Dam construction approved .. n1031
Denison Dam:
Spillway bids due soon n157; n218
Douglas Dam:
Opposition is eliminated n145
TVA plans dam as near duplicate of Cherokee n*1030
TVA starts construction n213
Folsom Dam:
Exploratory drilling started n960
Fort Gibson Dam:
Postponement of construction n754
Fort Peck Dam:
Powerhouse superstructure, surge tanks (unit prices) 369
Friant Dam:
Lake to be called Millerton Lake n67
Glenville Dam:
High head for power development used in manufacture of aluminum for bombers *334
Rockfill dam, not earth fill. J. P. Growdon 1533
Grand Coulee Dam:
Area not entirely closed to visitors .. n*363
Facilities of town near dam put on block n750
Falsework for arches set on drum gates *552
Getting ready for first water n*759
Hydrostatic test for big scroll-case n*3
Project turned over to U. S. Bureau of Reclamation n5
Railroad bridge drowned out by Coulee Lake floated to new place .. n*441
Sandblast nozzle for cleaning gates *875
Truck carries 37 ton plate girder n*526
Two generators and turbines to be transferred from Shasta Dam n761
Two power lines to be built to Spokane n520
Water turned on n*949
Green Mountain Dam:
Processing plant for separating fines from rock *188
Hale's Bar Dam:
Flow of river under dam reduced n*894
Indian Rock Dam:
Concrete pumped downhill for the dam. G. M. Glines *863
Kentucky Dam:
Cofferdam design. L. A. Schmidt, Jr. 1467
Cofferdam design for dam. A. F. Hedman *30
Cofferdam piles driven by four-hammer rigs. J. W. Peerson *194
Lock, powerhouse and third of spillway finished n*762
Reservoir clearing starts n65
Lois River Dam, B. C.:
Dropping concrete 50 ft. without segregation *193
Madawaska River Dam, Canada:
More power for Eastern Ontario n*146
Markham Ferry Dam:
Hearings on possible construction n452

Dams—continued

Mud Mountain Dam:
Earth-and-rock-fill dam reaches record height n*166
Finding moisture content of soil by water displacement method. Cary & Walter *493
Measuring soil-sample volume. Cary & Harstad *419
Studies made of water stored for irrigation use n375
Nantahala Dam:
High head for power development used in manufacture of aluminum for bombers *334
Nottely Dam:
Closed month ahead of schedule..... n*298
Oaklandon Dam, Ill.:
Concrete spillway records high temperature *852
Ross Dam:
Bids for enlargement called for..... n836
Increase in height recommended..... n313
San Vicente Dam:
Reported 80 percent complete..... n377
Santa Fe Dam:
Portable lighting units for night operation *797
Toilet, portable, supplied and serviced on rental basis..... *797
Santee-Cooper Dam:
First power released..... n*219
Shasta Dam:
Belt conveyor hangs on "skyhooks". n*169
Cable handling n*453
Construction reaches halfway mark. n*587
Construction rushed on power facilities n*80
Hanging salamander warms exposed pump station *627
Penstock tests n*512
Pit River Bridge—laying the concrete deck n*223
Pit River bridge placed in service..... n517
Pit River bridge railing..... *429
Power plant is emerging from scaffolding n*1029
Sliding plug for drill holes limits zone to be grouted..... *412
Strain meters to measure plastic flow. *425
Two generators and turbines to be transferred to Grand Coulee..... n761
Welding and testing the dam penstocks. G. L. Yetter..... *542
X-ray darkroom moves with the job.. *207
TVA's Ocoee No. 3 Dam:
Concreting operations nearly completed n*961
Table Rock Dam:
House rejects recommendation for appropriation n452
Watts Bar Dam dedicated..... n74
Wolf Creek Dam:
Earth fill construction..... n*387
Project under way (map)..... n237
Yadkin Dam:
Contract awarded n1035
Doors—collapsible doors for airplane hangar, Tex. *772
Drafting table tops of white linoleum..... 797

Drainage

Clogging hazards in underdrains..... *409
Cross-sectioning clogged drainage—ditches. J. F. Mollenkopf..... *785
Galveston, Tex. airports use three types of drainage *906
Drainage of earth slide at San Franciscan playground by pipes..... *539
Plan draining Canadian lake to recover iron ore n814
Tests of underdrain filters..... 909
Tule Lake drainage bore placed in operation n960
Dredges and dredging—St. Johns River, Fla. channel to be dredged..... n219

Drydocks

Capetown, South Africa, graving dock being built n1031
Navy drydocks make construction history *472
Pollock protests listing for excessive profits n165

E

Earth fill
Green Mountain Dam—processing plant for separating fines from rock..... *188
Earth slide:
Pipe drains stop an earth slide, San Francisco playground *539
San Francisco street earth slide..... n*307
Earth tilting in California shown by surveys *477; e605

Earthquakes

Earthquakes and bomb explosions..... e902
Long Beach, Calif. surveys made before and after earthquake show earth movement *477
Vibration periods of structures. H. M. Engle 859

Electric Railways

Boston elevated railway demolition starts n*236
Boston elevated railway removal bids asked, contract awarded..... n222; n389
Boston to demolish its Atlantic Avenue "L" n74
Canada halts removal of street car rails n762
Indianapolis street car rails to be removed n454
Rail salvage made Kentucky WPA project n762
Street-car rails salvaged for steel scrap. 409
Electric rates—see Power and Power plants
Electrical control—photo-electric block system speeds tunnel trains..... n*752
Electrical grounding—wire laying device installed by tractor drawn rooter. R. C. Dean *343

Electrical Transmission

Bonneville to use part of Tacoma lines and save copper..... n514
Casualty insurance engineer reduces accidents in building transmission line. A. W. Meinke..... *868
Consumers Power erects timber frame substation to save materials. H. N. Fox *487
New Bedford Gas and Montaup Electric interconnection approved..... n526
Electrical wiring methods to be formulated by USHA..... n376
Engineering Institute of Canada—meeting in Montreal n307
Engineering News Record—Editors Ballard and Cleary assume new duties.... n*65

Engineers

Canadian legislation permits drafting of engineers for war production work... n511
Chicago city engineer suspended..... n970
City bridge engineer of Seattle is Japanese prisoner n447
Civilian defense, a new field of service.. e10
Corps of Engineers, U. S. Army Organization—see U. S. Army
Engineer-in-training approved by N. Y. Board n817; n969; e841
Examining Boards have no representation of young engineers. Jacob Mark. 13
Federal government needs more engineers n447
How civilian engineers are being absorbed into war effort..... n215
Licensing—New York State law confusing e323
Mobilize engineers e534
Navy's construction battalions right behind the marines..... e535
Opportunity for engineers. H. A. Byhanna 181
Professional unity needed. M. E. McIver 1765
Protest wording in bill to limit profits.. n591
Registration:
Massachusetts board receiving registrations n527
Missouri State Board of Registration created n319
Role of the engineers in the Army..... *846
San Francisco-Oakland Bay bridge engineer wins back pay court action.. n454
Schools and universities speed-up courses for engineers and others needed in war..... n514
Status of engineers under Order L-41 to be cleared..... n949
Erosion—debris kept out of reservoirs by soil erosion control, California..... *980

Excavation

Chicago subway stations built with little inconvenience to traffic and stores... *854
Toledo railway yard prepares turntable pit by using crane mounted on old turntable *481
WPB Order L-41 exempts some excavation work from stop-order..... n949
Excavation—see also Caissons, Foundations.

F

Federal Public Housing Administration—Herbert Emmerich to replace Keyserling as head..... n442

Federal Works Agency

Boards for passing on all projects being set up n950
Centralized control for the agency..... n76
L. C. Glotzbach appointed director..... n968
Housing program to be expedited by pooling personnel n145
Markwell gets regional directorship.... n951
Nine regional offices organized..... n897
Revamped agency will tackle war public works needs..... n364
Federation of Architects, Engineers, Chemists and Technicians—establish a War Production Department..... n890
Ferry route tolls removed in North Carolina n1030

Federal Work Agency—continued

Fire extinguisher puts out magnesium fires 72
Fire protection—fires in wartime..... 84
Fires—Canadian construction camp bunk house destroyed by fire..... 76
Floating railroad bridge to new place... n*441

Floods and Flood Protection

Floods cause damages..... n*85
Floods in West and Southwest cause serious damage to roads and bridges. n*
Hartford, Conn. twin conduits constructed to carry Park River through city and prevent floods..... *
Kansas floods damage highway bridges. n*
Large projects of 1941..... *
Missouri valley and Kaw river watershed suffer floods..... n*
New York City declared liable for inadequate storm drain at Forest Hills n302; n*
Pennsylvania flash floods destroy highway bridges n*884
Pennsylvania pushes flood clean-up... n*
Pennsylvania's flood damage repair estimated ..... n*
Principal power, flood control and irrigation projects under construction in U. S. 1942 (map)..... 10
Radio for flood emergencies, Los Angeles. M. E. Kennedy..... *
Underground storage for floods assures Army camp water supply. C. G. Beardslee ..... *
Floods and flood protection—see also Dams

Floors

Chevrolet Motor Co. building uses grid system floor of record spans. S. D. Szego ..... *
Spring-scale measures deflections of loaded floors. F. M. Weakley..... *
White cement floors for better light in bomber plant *398; n*1037

Forests and Forestry

Kentucky reservoir protected by planting trees ..... n
Lake Muttamuskeet, N. C. causeway to be protected from erosion by trees... n
Reforestation slowed in Kentucky..... n

Foundations

Airport foundations erected in frozen ground by using tents to protect the concrete ..... *
Chicago subway stations built with little inconvenience to traffic and stores... *
Concrete pile foundations in soil of changing volume cuts costs by drilling. G. P. Rice..... *
Peoria bridge foundation piles penetrate water-bearing stratum, complicating construction. W. H. Townsend ..... *
Warehouses for a Quartermaster base speeded by construction methods..... *
Well points in glacial drift..... 87

G

Garbage and Refuse Disposal

City permits ..... e
Garbage man in wartime..... e
Municipal public works activities since the transition to wartime economy. E. J. Cleary..... *
Paper salvage from refuse effects incinerator operation but favors landfill disposal. Rolf Eliassen..... *
Toronto screens incinerator ashes to recover scrap steel..... n
Gates—four-fold swing gate at Corning Glass Works ..... n*

Glass

Britain restricts glass to non-target areas ..... n
Testing window glass for concussion damage ..... n*
Glass wool ends noise problem in test cells for airplane engines..... *

Grade Crossings

Air lift for artificial drainage duty in underpasses. W. B. Cannon..... 1
Jackson, Miss. underpass completed... n*
Louisville grade separation project completed ..... n*
San Diego, Calif. grade separation (unit prices) 75
Washington, D. C. grade separation (unit prices) 50
Winnetka, Ill. grade crossing construction is aided by wire rope bracing.... *
Grading—Kentucky court rules grading job includes rock removal..... n
Grouting—Delaware River Aqueduct—grounting tunnel lining..... *
Sliding plug for drill holes limits zone to be grouted..... *

Chart for spacing stiffeners. M. J. Marcuson, 207; correction 502
Concrete beehive for underground munitions storage. F. R. MacLeay .. *498; e470
Concrete frames designed to save steel. J. J. Polivka *981
Dallas bank building utilizes 50-ton trusses joined to columns by heavy gusset plates *782
Denver auditorium using steel rigid-frame arches. P. J. Foehl *546
Designing concrete beams. Andrew Eberhardt 1 8
Designing for higher unit stresses. C. P. Disney 1 9
Designing reinforced concrete beams by column analogy. C. A. Ellis 1 321
Domed building fitted to research needs of University of California *536
Effect of settling pier. Otto Ebel 43
Fixed end moments. John Vamosi *502
Fixed-end moments calculated with help of tables. M. W. Rosenstein 994
Flame-straightened I-beams *566
Higher stresses and steel savings. C. T. Bishop 1 973
Increasing unit stresses. Bruce Johnston, 1 239; Disney, Johnston, Goodrich, 1 466; H. S. Rockoff 1 602
New moment formulas. Joshua Tabatchnik 627
Plywood gussets stiffen camp buildings, Calif. n*443
Quantities of cylindrical intersection. L. J. Sack 618
Refinement in design to conserve materials. S. U. Benscoter 1 972
Rigid frames not always best. H. M. Hadley 1 395
San Francisco-Golden Gate bridge movements being reported for study *867
Saving reinforced-concrete steel by rationalizing safety factors. A. J. Boase 785; e766
Saving reinforcing steel. F. P. Witmer . 1 972
Section modulus of girders. Paul Fischer *798
Steel highway bridges strengthened by integrating concrete roadway slab steel flood system. E. L. Pavlo *339
Tubular members to save steel. H. S. Card *418
Varied safety factor for steel. M. Hirschthal 1 900
Vibration periods of structures. H. M. Engle 859
"We learn from failure" e396

Subways
Chicago subway (unit prices) 202
Chicago subway may be used as air raid shelter n324
Chicago subway station street decking . *858
New York subways surveyed for air raid safety areas n443

Surveys and Surveying
Adding third dimension to aerial photos. V. V. Colby *626
Boundary error discovered questions Louisiana-Texas boundary 48
Corps of Engineers asks surveying tools n526
Cross-sectioning clogged drainage ditches. J. F. Mollenkopf *747
Determining telescope magnification by the principal planes method. L. W. Jones 410
Elevations on vertical curves *626
Foreign maps and aerial photographs wanted by Corps of Engineers n*96
Long Beach, Calif. surveys made before and after earthquake show earth movement *477
Navy gets five Coast and Geodetic Survey ships n586
Sacramento, Calif. map shows city services 29
Signal lamps for night surveying. D. L. Parkhurst *184
Springfield, Mass. makes subsurface survey to locate emergency supplies . 413
T.V.A. engineers to map New York State strategic areas n7
Tangent distances for runway intersections. R. E. Stallings *566
Tangent distances for runways. C. W. Sprotte 1 468
Tangents to vertical curves. Charles Macklin 207
Transforming vertical curves. Charles Macklin, 1 81; correction 839
Unequal tangent distances. R. G. Davies 1 *81
Vertical curves solved by slide-rule. C. M. Bennett 39

T

Talbot, Arthur Newell, research leader, dies n*528

Tanks and Standpipes
Council Bluffs, Iowa, prestressed concrete water tanks *608
Fall River, Wis. puts tank on a pedestal n*158
Maintenance of steel water tanks 407
Prestressed concrete tanks e974
Tank repair contracts should be scrutinized n302
Tulsa, Okla. all-welded steel water reservoir *614
Vibration periods of structures. H. M. Engle 859
Target range, moving, Las Vegas, Nev. (unit prices) 228

Taxation
Baltimore court upholds asphalt paving contractor on tax exemption n308
Greenville, Miss. seeks decision on legality of interstate bridge tax n881
Iowa refuses tax refund to government contractor n514
St. Paul expands public services through use of tax-reverted land 787
Telescope—determining telescope magnification by the principal planes method. L. W. Jones 410
Tennessee Valley Authority—seven engineers promoted to handle new projects n2

Tractors
Compacting earth with tractor-mounted vibrator 561
Compressor and drifter mounted on tractor *430
Making equipment last longer *871
Sales restricted to A-1 priority orders n317
Track-laying tractors not to be sold ... n366

Transportation
Labor-Management committees working out systems to pool transportation n890
Looking ahead in transportation. V. T. Boughton *88
Massachusetts surveys war transport .. n1035
Municipal transportation problems 484

Trucks
Army cargo truck bodies to be made of wood n*1040
Indian River County, Fla. truck weight limit ruled not valid n782
Iowa liberalizes truck loading regulation n782
Kentucky raises truck load limit requirements n452
Legislation to raise truck weight protested n155
Light truck manufacture to stop n454
Mobile compressor and air-tool unit for the Army *208
Munition truck explosion hearings n529
Portable service station, Cherokee Dam . *565
Rationing plan instituted for distribution of trucks n363

* Illustrated; a abstracts; e, editorials; l, letter; n, news

Trucks—continued
Truck team carries 37-ton plate girder.n*526
Uniform truck-weight rules approved by governors of all the states.....n894

Tunnels
Chicago water tunnels (unit prices).... 938
Continental Divide Tunnel:
Photo-electric block system speeds tunnel trains n*752
Delaware River Aqueducts:
Car and trailer for inspection.....*429
Grouting tunnel lining.....*19
Tunnel section ready for emergency use n881
New York City:
Battery-Brooklyn Tunnel:
Driving to continue, utilizing materials on hand.....n378
Shield set-up n*4
Revenues for 1941 show gains.....n528
Typhoid—safe water and typhoid toll. M. N. Baker.....*551

U

Unit prices ..46, 71, 162, 212, 228, 311, 350, 380, 432, 456, 508, 523, 735, 755, 828, 878, 938, 1027
Unit prices—selected list of projects showing how contractors bid in 1941-1942.. 735
U. S. Army:
Army specialist corps to put civilians in uniform n443
Somervell to head all Army supply....n364
U. S. Army Engineers:
Contract procedure simplified.....n387
Middle Atlantic Division office set up..n83
Mountain Division office is set up.....n815
Organization chart of the Corps of Engineers 918
Philippine work is praised.....n309
Records of war construction program are being microfilmed.....n442
Reorganization of Army work speeded.. n1
Role of the engineers in the Army.....*846
Safety record set by engineers.....n388
Six new district offices established.....n56
Testing laboratories transferred.....n753
U. S. Bureau of Reclamation—celebrates 40th anniversary n1034
U. S. Coast & Geodetic Survey—officers changed n759
U. S. District Engineers Office—working hours increased n67
U. S. Navy:
Engineers make first action report.....n1035
Insignia of the Seabees, Navy's new construction forces n*746
Seeking men for construction regiment.n166
Senate approved billion for naval public works n527

V

Vibration periods of structures. H. M. Engle 859
Vinsol resin—a new soil stabilizer.....*777

W

Walls
Crib wall model tests. G. C. Habicht.. 18
Wall patent claims rejected by U. S. Supreme Court n758

War
